DETAILED ACTION

This action is responsive to the decision by the Board of Patent Appeals and Interferences rendered on 9/30/2011.

Allowable Subject Matter

1. Claims 3, 5, 10, 12-23, and 52-58 are allowed.
2. The following is an examiner's statement of reasons for allowance: The independent claims of Applicant's invention recite a method and system for identifying a consumer according to a purchased and recalled product, providing the consumer with a notification of the recall at a kiosk or terminal, and offering the consumer, via the kiosk, either a rebate or an incentive on a subsequent product purchase.
3. Knegendorf (U.S. Pub No. 2003/0074272) discloses an automated online system for matching recall specifications with registered consumers. Knegendorf further teaches multiple ways of sending recall information to a consumer, including email, telephone, a portal interface, or in person. Knegendorf further teaches that exchange for a new product or monetary compensation due to recall is old and well-known. However, Knegendorf does not teach a consumer purchase history as playing a part in the notification of recalls. Knegendorf is further silent with regard to a retail store kiosk or terminal.

4. Abreu (U.S. Pub No. 2001/0056359) discloses a system in which users are identified at a POS and purchase identifiers are tracked in order to notify users of any potential recalls. While Abreu overcomes some of the deficiencies of Knegendorf, the proposed combination still does not teach the recall notification and inventive administering as taking place at a retail store kiosk or terminal. While Examiner argued that retail kiosks are old and well-known and notification of information such as recall information (or really, any information that is store or purchase related) would be obvious to one skilled in the art, the Board of Patent Appeals and Interferences disagreed in the decision rendered on 9/30/2011. In the decision, the board has apparently found that an in-store computer capable of providing well-known rebate and incentive information is novel over the prior art of record. Therefore, the subject matter contained within the independent claims of the instant applicant is found to be allowable.

5. Independent claim 3 overcomes 35 U.S.C. 101 as it is directed to a method in which the determining step is considered to be significant, and it is performed using a computer system.

6. Independent claim 55 overcomes 35 U.S.C. 101 as it is directed to a system that contains a "computer system" and a "retail store computer system". The specification

outlines these systems as having structural computers, and therefore these are systems are hardware components.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL BEKERMAN whose telephone number is (571)272-3256. The examiner can normally be reached on Monday - Thursday, 9:00 - 3:00.
